### **I Want You (Fever)**

Take it apart and build it again (I'm right on it)  
Don't call it a loss, call me instead (I'm right on it)  
Really can't believe you didn't tell her  
Do you think she knows we're back together?  
Everyone can see what this is all about  
We're the talk of the town

Pick up and leave her  
I want you, fever

Take it apart and tear her to shreds (I'm right on it)  
You can't play it off you can't play pretend (I'm right on it)  
Really can't believe she doesn't feel it  
Even I can see that you don't mean it  
Everybody knows that this is going down  
We're the talk of the town

Locked and loaded  
I'm your bullet  
Pull the trigger  
Don't be shy  
Let her down, it'll feel good  
I'm right on it  
Just be honest

Pick up and leave her  
I want you, fever

### **Ohio All The Time**

I'm standing by the sign  
Ohio I get dizzier when I'm outside  
100 on the line  
These nights are getting busier by my design

Take a picture  
A minute with her  
Should we call it a night ?  
Alright  
A broken front plate  
Happy birthday  
Show your cards, roll the dice

I'm running to you, right?  
I'm running to you, right?  
I'm gunning for you  
Never been bad but I'll try  
I'm putting up a fight  
I'm fucking up my life  
I'm running to you, right?  
Alright alright

Your silly little cues  
I never got ohio babe but now I do  
And I'm stuck in 22  
I'm hanging out forever  
Summer's a tattoo  
With you

Heard a whisper  
"He wants to kiss her"  
And I wanna know what it's like  
It's like,  
An empty bottle  
And now my mouths full  
Ohio you have me tonight

I'm running to you, right?  
I'm running to you, right?  
I'm gunning for you  
Never been bad but I'll try  
I'm putting up a fight  
I'm fucking up my life  
I'm running to you, right?  
Alright alright

I'm running to you, right?  
I'm running to you, right?  
I'm gunning for you  
Tell me you'll see me tonight  
I'm standing by the sign  
Ohio all the time  
I'm running to you, right?  
Alright alright
