
SIDE A

Always / Never

Must be some way to feel again
Always thought I was on the right side
Now that death's licking at my heels
I don't know what's happened here with my life

What should I remember oh oh oh
Why should I go on like everything's fine
Hot shit in November
No shadow to keep em'
feeling alive

I want some way to feel again
I wanna live in another time
With my back up against the wall
I don't know what happened here but I'm fine

What should I remember oh oh oh
Why should I go on like everything's fine
Hot shit in November
No shadow to keep em'
feeling alive

I should've never fallen for it
Somebody who never listened to me
Why that you're wrong when you don't mean it
Why say it you always never

I need something to feel again
I need another who understands
What the fuck am I doing here
I don't know what's happened here with my life

What should I remember oh oh oh
Why should I go on like everything's fine
Hot shit in November
No shadow to keep em'
feeling alive

I should've never fallen for it
Somebody who never listened to me
Why say that you're wrong when you don't mean it
Why say it you always never

Holding On

Maybe we should we give it up
I don't wanna feel that burden anymore
I don't wanna feel like we're just holding on
I don't wanna feel that burden anymore

Turn around
If we could get along
We would work it out
Feeling so alone being right
If I knew what I know I know now
I'd never let it let you go down

I'll get away from this lonely town
Follow you
Either way I'll be gone
And I'll always be away
The day when you come around
Underground
I'll wait till you finally call me out

interspace 2

[instrumental]

Feelings

Feelings
Run and hide away
From each other
Feelings
Rather run away
From another

Never could decide
Seen it all my life
You will say goodbye
Rather run and hide

SIDE B

Together Forever

You don't need a lover
Wanna see and I understand, you're waitin' on
Under a cover
Oh why would you burn it down, I gotta get out

Shorty you've taken my heart
Well you know
Why couldn't I be your friend
Why you taking so long?

Shorty will you take my...
Shorty will you take my love
I don't wanna break your heart
Shorty will you take my love
Isn't it hard enough
Shorty will you take my love
I don't wanna break your heart
Shorty will you take my love
Isn't it hard enough
hard enough, to fall in love
Isn't it hard enough

Always another
Stand still cause I ain't a fan of waiting on
All for each other
You wanted in when I wanted out and waited so long

Under Water / In Air

Oh the way that you look
I been waiting for you I been waiting for years

Oh, the way that you move
Underwater, in air
In the water of tears

And the more that you love
And the war that it is is a battle for you

I wanna know where you are
When the world finally ends I'll be waiting for you

You want it all
No never never on the outside
Don't everybody want it all
No no one on the outside

Oh the way that you move
Oh the way that you look
Oh the way that you are
Underwater in air
In the water of tears in the war that it is

You want it all

No never never on the outside
Don't everybody want it all
No no one on the outside

No one know it all
I'm hanging on and high
Nod on and on and now there's nowhere left to hide
And white out every button
And waited for the sound
Waited for my sound
Waited for the

Armatron

I don't wanna know
Don't wanna know
Don't want to think about it

I don't wanna know
Don't want it all
Another day together

I knew it all along
I read it all
I know you want me there but
I don't really care at all
Just take me home
Just let me out right here now

Brand new
So do you
So do you
Wanted brand new
So do you
So do you

I don't wanna know
Don't wanna know
Don't want to think about it

I don't wanna know
Don't want it all
Another day together

I knew it all along
I read it all
I know you want me there but
I don't really care at all
Just take me home

Just let me out right here now

Brand new
So do you
So do you
Wanted brand new
So do you
So do you

I don't want to know
Know what it's like
Living without you

Interspace 3
[instrumental]

SIDE C

Chizzlers
Voulez vous
Comme je voulais
et tes yeux
ils sont hantés
Y Il y a peu
Je Suis tombé
Comme un fleur
Pour l'abeille

interspace 4
[instrumental]

Running Around
Running around
Wasting my time
Made it out so low
Oh yeah
Oh no
I'm

Running around
Chasin 'em down
Better off solo
Always
Alone
Ahhh

I don't know why
Give it some time
Night after night
You will be fine
I don't know why
Give it some time
I don't know why

Carnival

Shot him in a magazine
Is it your fantasy
Another shade of love
Oh no
Oh no

Shake it like a flavor queen
Isn't it clear to see
A little late for us
Hold on

Just hold on through the night
Why would I
Shade up for a minute
Hold on
Hold on through the night
Why would I
Trade it for another

SIDE D

Lot Of Nice Things

I don't want to waste the energy or effort on a throw away
I wanna float away
All the way

Only you, it's only you I never knew I'd find another way
I wanna float away
All the way

You say "Nothing's forever"

Oh my only lover
Got a lotta nice things to say
Lonely lover

Stay forever
Got a lotta nice things to say
My only lover
Oh my only lover

interspace 5

[instrumental]

Waited For It

I waited for it
All my life

Something To Prove

I'm glad you look like that
You're the only one
Sometimes I swear it makes it easier for me
Remember when you told me
You wanna be wanna be
Just a little smarter
Guess you got something to prove

Leaving

I don't know why
Nothing at all
Digging for something but it's never enough
Figure it out
Tearing it down
I don't remember what's the point of it all

What a let down
What does it matter
When it's always just more of the same
From the outset ain't any better
But you always get carried away
Now that you know it's already over
You're so in love with yourself
You coulda loved somebody else

Maybe a lifetime
Maybe you'll know, when you're old
What does it matter
What do I know, do you know?
What could I have done any better

Radio

He ever want to see the light
I know I know I know I know

Eyes / Radio

I'm going on my own

Eyes / Radio

I'm going on my own

So I can find another home
